

# 2018-19 Instructional Software Guidelines

Dear Falcon Family,

SST Advancement provides many curriculum and supporting software programs to help our students enrich their learning and master their skills. To assist your child and follow up their assignments, please use this guide.

1. Log in to the “Clever” through our school website [www.sstadvancement.org](http://www.sstadvancement.org) or [www.clever.com](http://www.clever.com).

The screenshot shows the school's website with a banner for Hispanic Heritage Month. The banner includes the school's logo, the motto "Better Education, Better Future", and the text: "Hispanic Heritage Month is celebrated from Sept. 15 to Oct. 15, and it recognizes the achievements of Hispanics everywhere. Why Sept. 15? It's recognized as the independence day of five Latin American countries: Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua. Mexico celebrates its anniversary of independence on Sept. 16, and Chile on Sept. 18." Below this, there is a Spanish translation of the same text. The website also features a navigation menu, a sidebar with various educational tools like Clever, Reasoning Mind, and ALEKS, and a right-hand column with links for IT requests, database login, and lunch login.

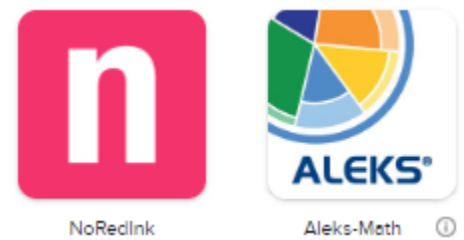

2. You will be asked username ([student ID#](#)) and password ([sst2018](#)), then you will see all software and curriculum resource icons with hyperlinks for your child's grade level as below.

**At Home Resources:** Students use these software programs during their ELA and Math SW periods. They are encouraged to practice at home as well by using these accounts.

**Curriculum Online Access:** These resources are online version of their textbooks. Assignments and learning progress may be monitored through these resources.

**More Apps:** These are additional apps to support their learning.

The screenshot shows the Clever SST Advancement dashboard. It is organized into several sections: "Teacher Pages" with five icons, "At Home Resources" with NoRedInk and ALEKS, "Curriculum Online Access" with Think Central, Holt McDougal, Studies Weekly, Code.org, and NWEA map, and "More Apps" with CK-12, Codecademy, Khan Academy, PBS LearningMedia, Quill, SchoolRun!, Typing.com, and Vocabulary.com.

3. Most of the softwares under clever will not ask separate username and password, but some will require additional username/password to log in. You may contact your child's teacher for [NoRedInk](#) and [ALEKS](#) access credentials.

Should you have further questions regarding online resources and login credentials, please communicate with your child's teacher.

Best regards,  
SST Advancement
